PROFESSIONAL SUMMARY

Senior cybersecurity professional with 6+ years securing cloud-native and SaaS environments in regulated and high-risk industries. Deep expertise in vulnerability management, penetration testing, incident response, and secure-by-design architecture across AWS and modern DevOps workflows. Track record of building and leading security teams, integrating automation into offensive and defensive workflows, and partnering with engineering to deliver scalable, secure systems.

TECHNICAL SKILLS

Offensive Security: Web App Pentesting, Infrastructure Pentesting, API Pentesting, Wireless Pentesting, Red Team, VAPT, DAST (Acunetix, Invicti), Nmap, Nessus, Qualys, Metasploit

Cloud Security: AWS Security Specialty, AWS Config, IAM Access Analyzer, GuardDuty, CloudTrail, Security Hub, Zero Trust Architecture

Defensive / SOC: SIEM (AlienVault, Splunk), SOAR, Incident Response, Threat Intelligence, Threat Hunting, MITRE ATT&CK, CSIRT, Vulnerability Lifecycle Management, CVSS/CVE Triage

GRC & Frameworks: ISO/IEC 27001, NIST CSF, Zero Trust, Secure SDLC, DLP, Azure Information Protection

Tools & Other: Python Scripting, Jira, Barracuda ESG, Microsoft 365 Security, Phishing Simulation, Security Awareness Training

WORK EXPERIENCE

Senior Cybersecurity Analyst (Team Lead) | Cyberteq, Accra

Jan 2023 – Present

- Scaled the team from 3 to 11 in 2 years through strategic hiring and coaching; several members have since moved to multinational organisations.
- Conducted threat intelligence investigations for major banks using AI-powered tools to automate collection and analysis of leaked credentials and malicious indicators from stealer bots, dark web forums, and public breach dumps — improving detection speed by 40%.
- Strengthened AWS security posture by auditing environments with AWS Config, IAM Access Analyzer, GuardDuty, and CloudTrail; remediated 90% of exposed resources and over-permissioned roles.
- Integrated AI into offensive security workflows (automated reconnaissance, exploit prioritisation), reducing manual effort by 30% and accelerating high-impact vulnerability identification.
- Performed security-focused network architecture reviews across on-premises and AWS cloud infrastructure, and conducted configuration reviews of firewalls, routers, and switches — identifying and mitigating critical vulnerabilities.
- Partnered with geographically distributed engineering teams throughout the SDLC to provide secure design guidance, validate fixes, and ensure secure release readiness.
- Served as a key member of the company CSIRT, contributing to incident preparedness, coordinated response, and post-incident reviews across high-severity cases.

Data Security Specialist (Part-Time) | EQN (NGO), Remote [Concurrent with Cyberteq] Mar 2022 – Dec 2023

- Applied Zero Trust principles via Azure AD — enforcing identity-based access, MFA, and conditional access policies — reducing unauthorised access attempts by 70% within six months.
- Secured 30TB+ of sensitive abuse-reporting case data using Microsoft OneDrive, SharePoint, role-based access controls, DLP policies, and Azure Information Protection, ensuring compliance with donor and data privacy standards.
- Delivered quarterly digital safety training for NGO staff, achieving a 40% reduction in accidental data exposure incidents.
- Deployed and managed antivirus protection across all Windows and macOS devices, contributing to a 60% drop in malware infections.

Cybersecurity Analyst | Cyberteq, Accra

Jan 2021 – Dec 2022

- Led end-to-end vulnerability management for 4 clients — triage, prioritisation, and fix validation — achieving a 40% reduction in critical vulnerabilities and improved SLA compliance.
- Executed strategic security programmes for 6 global telecoms firms and a government institution using DAST tools (Acunetix, Invicti), assessing 5,000+ digital assets and 1,000+ IPs; reduced remediation time by 30%.
- Minimised downtime by 50% during a \$4M breach by testing compromised systems, reporting to forensics experts, and ensuring safe network reintegration.
- Conducted proactive threat hunting using MITRE ATT&CK, identifying previously undetected threats and converting findings into new SIEM detection rules.

Cybersecurity SOC Analyst | Cyberteq, Accra

Sep 2019 – Jan 2021

- Reduced potential threats by 20% within the first 3 months through monitoring and triaging security events for a major telecoms client using AlienVault SIEM.
- Improved alerting infrastructure by tuning Barracuda ESG, AlienVault SIEM, and SOAR integrations to automate incident response workflows.
- Participated in 24/7 shift-based monitoring, serving as first point of contact for security alerts across client environments.
- Contributed to 10+ VAPT projects — internal and external penetration tests on production assets using Nmap, Nessus, and Metasploit.

CERTIFICATIONS

CISSP — ISC2	In Progress
AWS Certified Security – Specialty — Amazon Web Services	Sept 2025
Web Application Penetration Tester eXtreme (eWPTX) — INE Security	June 2025
Certified Professional Penetration Tester (eCPPTv2) — eLearnSecurity	Feb 2023
ISO/IEC 27001 Information Security Associate — SkillFront	Jan 2022
Cybersecurity Virtual Case Experience — PwC	Sept 2021
eJPT — eLearnSecurity	Jul 2021
Certified Network Security Specialist — ISCI	Sep 2020

EDUCATION

Bachelor of Science in Information Technology (Part-Time, In Progress) University of Ghana, Ghana	2023 – 2026
Higher National Diploma in Computer Science Accra Technical University, Ghana	2016 – 2019

PERSONAL PROJECT

Fynloe.com — Co-founder, Project Manager & Security Lead

Led secure design and MVP delivery of an AI-enabled web platform for searching schools and training institutions. Responsible for threat modelling, secure architecture review, and SDLC security practices.

VOLUNTEER EXPERIENCE

Regional Representative | Random Acts, Inc.

Aug 2025 – Present

- Perform acts of kindness for community members as part of a global volunteer network dedicated to making the world a kinder place.
- Collaborated with regional representatives across multiple communities to develop and coordinate kindness initiatives and outreach ideas.
